

Localift

Localift is a digital platform that supports small and micro businesses by providing an online marketplace to showcase their products. It simplifies order management and delivery processes, helping sellers reach a wider audience and streamline their operations.

Concept

The idea behind Localift is to empower local entrepreneurs by offering a scalable digital solution that connects them with customers in one unified platform. It focuses on improving accessibility, enhancing trust, and enabling the growth of local businesses through a user-friendly experience.

Work Plan

1. UX Design Process

1.1 Empathize

- Stakeholders Research
- Competitor Analysis
- User Research (Interviews & Surveys)
- Affinity Diagram
- Empathy Map
- Personas
- User Journey Maps

1.2 Define

- Problem Statement
- Pain Points
- Project Limitations

1.3 Ideate

- Feature Ideation
 - Feature Prioritization
 - Value Proposition
 - Feature Sketches
 - Information Architecture
 - User Flows
 - Sitemap
 - Card Sorting
-

2. UI Design Process

2.1 Design System

- Brand Identity
- Color Palette
- Typography
- Components
- Icons
- Spacing System

2.2 Wireframing

- Low-Fidelity Wireframes
- Mid-Fidelity Wireframes

2.3 High-Fidelity Design

- Buyer Screens
- Seller Screens
- Responsive Layouts

2.4 Prototyping

- Interactive Prototype
- User Testing
- Design Iterations

2.5 Handoff

- Developer Handoff
 - Assets Export
 - Design Documentation
-

Features

Buyer

- Browse Local Brands
- Search & Filters
- Categories
- Recommended Products
- Wishlist
- Cart
- Easy Checkout
- Delivery Tracking
- Ratings & Reviews
- Verified Sellers
- Chat with Sellers

Seller

- Store Management
- Product Management
- Order Management
- Inventory Tracking
- Analytics Dashboard
- Customer Communication

- Sales Reports
-

Team Responsibilities

Omar Ghoniem

UX

- Stakeholder Interview Questions
- Buyer Journey Map
- Affinity Diagram

UI

- Buyer Home
 - Search
 - Categories
 - Wishlist
-

Abdulrahman Ashraf

UX

- Competitor Analysis
- Problem Statement
- Project Limitations

UI

- Design System
 - Product Details
 - Cart
 - Checkout
-

Ahmed Ekramy

UX

- Buyer Survey Questions
- Buyer Pain Points

- Seller Journey Map

UI

- Seller Dashboard
 - Product Management
 - Orders
-

Mohamed Maged

UX

- Seller Survey Questions
- Seller Persona
- Seller Journey Map

UI

- Analytics
 - Notifications
 - Settings
-

Randa Ramadan

UX

- Seller Interview Questions
- Buyer Persona
- Seller Pain Points

UI

- Profile
 - Chat
 - Order Tracking
 - Onboarding
-

Shared Work

UX

- Buyer Interview Questions
- User Interviews (Each member interviewed 2 users)
- Research Analysis
- Feature Brainstorming
- Information Architecture Review

UI

- Wireframe Reviews
- Design Critiques
- Prototype Testing
- Usability Testing
- Final Design Review

Deliverables

- UX Research
- Personas
- Journey Maps
- Information Architecture
- Wireframes
- High-Fidelity UI
- Interactive Prototype
- Design System
- UX Case Study
